Keyholding & Alarm Response

Take the worry out of your home and business with a professional Keyholding & Alarm Response Service.

Have you ever been called out in the middle of the night not knowing what you will find when you attend the premises?

Rather than putting yourself or a member of your staff at risk, one of our trained Officers will deal with any situation from a simple reset of the alarm system, to a potentially dangerous occurrence. It is also worth considering your legal responsibilities as an employer.

If any windows or locks have been damaged, we will arrange for an approved glazier or locksmith to carry out essential repairs. Unless there is a major incident you really won't be disturbed.

The following day a report is provided with full details of the incident and the action taken by the Officer on site.

As soon as our Control Centre receive advice from the Alarm Receiving Centre (ARC) of an activation an Officer from our Patrol and Response Team will be immediately dispatched to the premises conducting a thorough check of the building to ascertain the cause of the alarm. If it is a false alarm the Officer will liaise with the ARC and reset the system. Should a break-in have occurred we will make arrangements for 'boarding up' of windows and doors where necessary after liaising with the Police and alarm company.

Benefits of our Keyholding Service:

- Response can be provided to business premises and homes
- Service provided in accordance with BS7984
- SIA Licensed and vetted Officers attending your premises
- Can be mobilised immediately upon notification
- Keys will be security coded, stored securely and fully covered by our insurance
- British Standard approved 24-hour Control Centre
